Growth plan despite challenges

Maintain BUY rating and target price of VND 73,600

Gemadept Corporation (GMD) is a pioneer in port and logistics service sector in Viet Nam. In 2025, despite concerns about reciprocal tariffs, GMD still plans for business growth. We expect GMD to maintain its growth momentum thanks to the addition of new service routes and the increase in service fees. Based on SOTP methods, we update GMD's target price at VND 73,600.

Growth business plan despite challenges

GMD has set two business scenarios for 2025 amidst market fluctuations. For the base scenario, GMD aims for net revenue of VND 4,850 bn (+0.3% YoY) and PBT of VND 1,800 bn (-14% YoY). For the optimistic scenario, GMD targets net revenue of VND 4,950 bn (+2.4% YoY) and PBT of VND 2,000 bn (-4.6% YoY). Excluding the divestment, the PBT is expected to increase by 11% YoY.

In the first half of 2025, business performance achieved positive results with total port throughput estimated to increase by 20% YoY, and PBT estimated to reach VND 1,100 bn (+20% YoY). For the remaining half of the year, we anticipate business results will be somewhat more cautious due to tariff-related factors.

Continue increasing capacity in the mid-to-long term to achieve double-digit growth

In the Northern region, GMD will bring the third phase of Nam Dinh Vu Port into operation in Q4 2025, increasing GMD's total capacity to over 7 million TEU (a 10% increase in capacity compared to current levels).

In the Southern region, Phase 2A at Cai Mep - Thi Vai has an investment capital of nearly 200 million USD, and is expected to add a capacity of 900,000 TEU/year from 2027 (+24% current capacity).

Positive outlook for 2025

In 2025, we expect GMD's business results to be strong thanks to the increase cargo handling volumes ahead of the reciprocal tariff and the addition of 4-5 new service routes at Gemalink (Europe, Canada, Australia, etc.). With the diversification of shipping routes within Intra-Asia and Europe, coupled with a low proportion of goods destined for the US (northern region: under 10% for US-bound cargo; southern region: under 30% for US-bound cargo), we anticipate GMD will be less affected by tariffs compared to the industry average.

Additionally, Gemadept plans to buy back a maximum of approximately 21 million shares, representing 5% of the total outstanding shares, to protect shareholder interests. The group will implement this share buyback when the trading price of GMD shares falls below 1.5 times the book value per share. The current level of 1.5 times GMD's book value is equivalent to over VND 45,000 per share.

We forecast GMD's after-tax profit to reach VND 1,809 billion (+13.4% YoY), driven by: (1) new international service routes at Gemalink and the expansion of intra-Asia routes, and (2) an increase in pre-tariff import volumes. Additionally, GMD expects to receive approval for a 10-15% increase in handling fees at Gemalink port in Q4/2025, and the divestment from its rubber segment is anticipated to be completed this year.

Risk: (1) economic downturn scenario and (2) slow down in demand.

Gemadept Corporation description

Gemadept was established in 1990. GMD was one of the first three companies selected by the government for equitization in 1993. In 2002, Gemadept was officially listed on the Vietnam stock market with the stock code GMD. After nearly 30 years of establishment and development, Gemadept is one of the leading enterprises in the country in logistics and port operations. Of which, port operation accounted for 86% of the revenue structure, Logistic activities accounted for 14%, and other services accounted for the remainder, including real estate and afforestation. The company is planning to divest from other fields and focus entirely on the port operation and logistics activities.

Gemadept Corporation's logistics value chain

Gemadept owns a system of ports in all three regions of the country in key areas and major economic zones. With a total of 8 seaports, the annual capacity of GMD reaches to 3.5 million TEUs and 2 million tons of bulk cargo. Combined with a modern logistics system, GMD prove its efficiency of domestic goods transportation.

Efficient port operation with many seaports located in prime locations

Gemadept currently has 4 ports in the North operating in the Hai Phong seaport area, 1 port in the central region operating in Dung Quat - Quang Ngai industrial park, and 3 ports in Binh Duong, Ho Chi Minh, and Ba Ria – Vung Tau areas. Gemadept's seaports are located in important areas for port operation. Hai Phong and Ba Ria Vung Tau port areas are the only two areas of the country that are specially designed for port operation. Ho Chi Minh and Quang Ngai are classified as Class I locations for port operation.

According to state regulations, all Vietnamese ports are graded according to 4 levels from special ports, to ports of class I, II, and III. The ports that ranked high are those that have a large volume of goods through the seaport, the ability to receive large ships, and have a direct influence on the development of the national economy. Therefore, Gemadept has a special advantage in exploiting and developing the seaport.

The leading logistics services in providing a variety of services

According to the evaluation report of Vietnam Report in 2021, Gemadept ranked first in the Top 10 prestigious Logistics companies in the categories of international freight forwarding, warehousing, and logistics services. With a comprehensive logistics system, Gemadept effectively exploits the logistics supply chain in 6 different fields: air cargo terminal, distribution center, OOG cargo transport, shipping, cold chain logistics, and Auto logistics.

- Gemadept is currently the largest shareholder of Saigon Cargo Services Joint Stock Company (SCS), with a market capitalization of more than VND 7,000 billion. SCS is in charge of operating the airport logistics at Tan Son Nhat airport. Gemadept's current airport operation segment has a capacity of 350,000 tons.
- Gemadept currently owns a logistics network including 19 distribution centers with a total area of up to 400,000 m2, concentrated mainly in key economic centers such as Ho Chi Minh City, Binh Duong, Hanoi, Hai Phong, Bac Ninh, Hung Yen… Gemadept is currently serving more than 300 domestic and foreign customers and partners, including large Vietnamese enterprises and famous global names. GMD's annual output is currently around 11 million CBM.
- Currently, Gemadept's transport capacity is about 18,000 TEUs, serving both road transport and water transport. Besides, Gemadept also undertakes the transportation of super-heavy items in Vietnam and is considered one of the top 3 leading companies in the field of super-heavy cargo transportation.
- Gemadept exploits the logistics of refrigerated goods through Mekong Logistics, a joint venture between Gemadept Joint Stock Company and "King Shrimp" - Minh Phu Seafood Corporation (currently Gemadept accounts for 25% and Minh Phu accounts for 41%). Mekong Logistics is a modern cold storage with the largest scale in the region, which has an area of 4.8 hectares and a capacity of up to 50,000 pallets.
- The automotive logistics segment is strongly developed through the joint venture K line – Gemadept Logistics (KGL), in which Gemadept holds 50% of the shares. With the current scale of 55,000 m2, the joint venture provides services for the world's leading automobile manufacturers such as Isuzu, Honda, Ford, and Mercedes...

Information on Vietnamese securities or related financial instruments may be limited. Foreign companies may not be subject to audit and reporting standards and regulatory requirements comparable to those in effect within the US. The value of any investment or income from any securities or related financial instruments discussed in this research report denominated in currencies other than the Vietnamese won is subject to exchange rate fluctuations that may have a positive or adverse effect on the value of or income from such securities or related financial instruments.

Distribution

- United States: This report is distributed in the US by Shinhan Investment America, Inc., a member of FINRA/SIPC, and is only intended for major US institutional investors as defined in Rule 15a-6(a)(2) of the US Securities Exchange Act of 1934. All US persons that receive this document by their acceptance thereof represent and warrant that they are major US institutional investors and have not received this report under any express or implied understanding that they will direct commission income to Shinhan Securities Vietnam Co., Ltd. or its affiliates. Pursuant to Rule 15a-6(a)(3), any US recipient of this document wishing to effect a transaction in any securities discussed herein should contact and place orders with Shinhan Investment America, Inc., which accepts responsibility for the contents of this report in the US. The securities described herein may not have been registered under the US Securities Act of 1933, as amended, and, in such case, may not be offered or sold in the US or to US persons unless they have been registered or are in compliance with an exemption from registration requirements.
- All Other Jurisdictions: Customers in all other countries who wish to effect a transaction in any securities referenced in this report should contact Shinhan Securities Vietnam Co., Ltd. or its affiliates only if distribution to or use by such customer of this report would not violate applicable laws and regulations and not subject Shinhan Securities Vietnam Co., Ltd. and its affiliates to any registration or licensing requirement within such jurisdiction.
