VALUE SEEKING

Portfolio Return

↑ 114% (1/1/2019 – 30/09/2022)

VN-Index Return

↑ 34% (01/01/2019 – 30/09/2022)

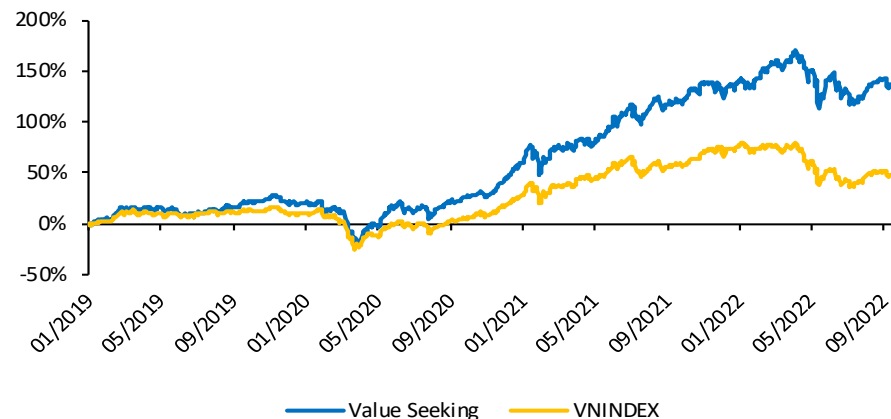

- After the first trading session of October 2022, the VN-Index closed at 1,086.44 points, a decrease of nearly 30% since the peak of 1,524.7 points set in April 2022. It can be seen that the market index has been traded at a relatively attractive valuation range with P/E forward of 10.3x, the lowest average level for the most recent 10 years. Besides, many blue-chip stocks dropped even steeper than the downward slope of the market. This is the time to apply value investing strategies.
- Therefore, Shinhan Securities has built and introduced to our clients the value portfolio that includes stocks that meet the following criteria:
 - 1) Belonging to the large-cap group, having good liquidity, and being listed for more than 3 years;
 - 2) Stocks of typical leading enterprises in their industries, with the potential for future growth;
 - 3) Having attractive valuation with potential value growth;
 - 4) Stocks of companies having healthy financial status, transparency, and good management.

- Hoa Phat Group (HoSE: HPG) is the No. 1 steel production enterprise in Vietnam as well as Southeast Asia and ranked in the Top 50 largest steel companies in the world. The group operates in 4 main fields: iron and steel, steel products, agriculture, and real estate; with revenue structure respectively accounted for 69%, 25%, 5%, 1%. For the iron and steel segment, Hoa Phat holds the No. 1 position with a 32.6% market share of construction steel industry, and a 25% market share of steel pipes industry. Hoa Phat is also in the top 5 galvanized steel players with an 8% market share, after 5 years of operation. Over the years, Hoa Phat Group has continuously enhanced its competitiveness and expanded its production capability. Steel production capacity has increased more than 4 times within 5 years, from 2 million tons in 2016 to 8.5 million tons in 2021.

- Short term: Hoa Phat is likely to benefit from the increase in steel prices thanks to China's reopen, which will increase steel demand in the context of reduced global supply. Hoa Phat's profit margin may improve in the future as prices of raw materials such as coke and iron ore have fallen by 60% and 40% respectively from their peak in Q2. Steel export outlook continues to grow positively. Accumulated in the first 6 months of 2022, the export volume of construction steel has increased by 60% over the same period in 2021.

- Medium and long-term: Hoa Phat continues to invest in the Dung Quat 2 Iron and Steel factory project (with a capacity of 5.6 million tons of hot rolled coil), the Ba Ria Vung Tau container manufacturing factory project (with a capacity of 5.6 million tons of hot-rolled coil). 500,000 TEU/year). Potential growth prospects in other business segments with the real estate project of Bac Pho Noi urban area (with area of 262 ha).

Risks:

- (1) Steel prices decrease;
- (2) Coke prices increase;
- (3) World economic risk;
- (4) Real estate market risk.

- Vietnam Technological and Commercial Joint Stock Bank (HoSE: TCB) is one of the largest retail banks in Vietnam, with remarkable success. TCB's strategy is not only focusing on investing in technology but also on building an overall digital-data system with talented personnel. The bank is currently leading the system with many vital indicators such as ROA, CASA ratio, and bad debt ratio (NPL).

- Techcombank has an outstanding asset quality in the industry with a thick capital buffer, low NPL ratio, high NPL coverage. Besides, TCB has high probability benefits from the low capital cost as TCB leads the industry in terms of CASA and successfully approaching offshore loan syndication market. The bank has the ability to adjust credit structure allowing TCB to change appropriately with the market. A unique ecosystem thanks to the cooperation with Masan, Vingroup and Manulife providing TCB a strong and diverse source of non-interest income.

Risks:

- (1) Inflation risk;
- (2) Increase in bad debt;
- (3) Unstable real estate market.

- Gas Corporation of Vietnam (HoSE: GAS) is the leading group in the gas field in Vietnam with 100% market share of dry gas, more than 70% market share of LPG (Liquefied Petroleum Gas). In addition, GAS owns 1,500km of gas pipelines, 3 gas treatment plants, 14 LPG storages. Currently, dry gas, LPG and condensate are the three key business segments of GAS.
- GAS has great growth potential with LNG power playing a pivotal role in the national power system according to power plan VIII. In the period from 2022 to 2035, GAS will invest in 7 out of 9 LNG (Liquefied Natural Gas) ports in Vietnam. According to Wood Mackenzie, Vietnam's dry demand could increase by 100% by 2035 when large-scale gas-fired power plants such as NT3 & NT4 come into operation.
- Block B O Mon is started at the end of 2022, GAS is the main investor of the gas pipeline. Abundant gas resources from this project will come in from 2026. With reserves up to 107 billion m3, this gas source will ensure the growth potential of GAS
- The average gas selling price of GAS improved thanks to the positive movement of Brent oil price.
- La Nina phenomenon may end by the end of this year, gas enterprises have a higher opportunity to mobilize, thereby creating a boost to gas demand.

Risks:

- (1) Reduced dry gas output;
- (2) Average selling price of gas decreased;
- (3) Block B O Mon came into operation later than expected.

FPT Retail is ranked 2nd position in the smartphone retail market (after Mobile World of MWG) and is No. 1 retailer in the laptop market in Vietnam.

- Authentic Apple products are regaining market share thanks to the tight control of the Government for portable products as well as Apple's support for officially authorized partners in Vietnam like FRT. The Apple products segment is accelerated in sale and maintained at double-digit growth by expanding the scale, upgrading Apple-product-experience at F.Studio stores.

- The growth potential of the retail pharma segment: According to Fitch Solutions, the total market value in 2021 of the pharmaceutical industry in Vietnam was VND 142.9 trn (USD 6.2 bn), and expected to be VND 155.8 trn (USD ~6.9 bn) in 2022. Based on the forecast of the pharmaceutical industry, the Long Chau pharmacy chain still has the growing potential ahead. In 2031, the figures are forecasted to reach VND 319.7 trn (USD ~12.8 bn), equivalent to the 10-year CAGR of 8.4%. FPT Long Chau is leading the retail pharmacy chain market in Vietnam with a market share of ~45% and was profitable in 2021. End of 3Q/2022, Long Chau pharmacy chain has opened 793 pharmacies, expecting to complete the plan of reaching 800 pharmacy stores in 2022..

Risks:

- (1) High leverage;
- (2) Risk of rivalry among existing competitors;
- (3) Risk from the retail pharmacy segment.

- Vietnam Dairy Products JSC (Vinamilk) is the largest Vietnam dairy company with a diverse product portfolio, capturing the demand of various consumers' classes, varying from prenatal to elderly, from standard products to premium products, and from cow milk-based dairy to plant-based dairy. Over 80% of Vinamilk's revenue has come from domestic market since 2007.

- Vinamilk is the leading company in the dairy industry, with an annual GPM of over 45%, taking more than 40% market share, and an annual dividend rate of around 5%. Vinamilk will continue to improve its GPM by cooling down the raw material prices as China increases domestic supply and reduces milk imports. This year, the nut milk segment has a positive result of 3 times higher than expected revenue due to reasonable selling prices and is expected to account for 3% of the total plant milk segment. Besides, Vilico – a subsidiary of VNM, is investing VND 2,083 billion in establishing a 200-million litter milk factory (expected to be completed in 2025) and VND 1,522 billion in the beef project.

Risks:

- (1) Risk of losing key overseas customers;
- (2) Risk of increasing competition.
